

## About IPG

### Our Company

Indiana Precision Grinding (IPG) was established in 1975 and today is recognized within the industry as one of the premier precision grinding job shops in the mid-west.

We specialize in providing precision solutions. Our core services include, but are not limited to, Process Engineering, Precision Grinding Services, Supplemental Production Support, and On-Demand Backup Support. Our current specialties within these service offerings include CNC cylindrical OD/ID, Centerless, Double Disk and Surface grinding.

We currently serve over 150 active customers across multiple industries and eighty percent of our customers have been doing business with us for over ten years.

IPG is family owned and operated with a hands-on management style that plays a critical role in the company's current and future success.

### Our Mission & Vision

#### Mission Statement

We are an innovative precision solutions company actively seeking knowledge of customer's needs, technology and markets to continually provide value-added, diverse solutions that contribute to the success of our partners: customers, team members, and stakeholders. Our culture fosters the level of quality, expertise and loyalty required to both actively support and quickly react to our customers' needs.

#### Vision Statement

IPG will be an adaptive, results-driven winning organization. We will aggressively process world-market information to become leading-edge continuously developing innovative strategies to capitalize on opportunities for further growth and profitability.

### Our Philosophy

Our mission is to contribute to your success. Regardless of what industry you are in or what parts you are manufacturing, we have the potential to positively impact your company's performance.

Whether your goals are to get better results from existing projects or to penetrate new markets, there are two critical components that determine the extent to

which we are able to contribute to your success

- The strength of our relationship with you and your team
- The performance of the solution we provide

Our entire organization is focused on excelling in both of these areas. The partnership-based solution model we have developed is the framework that provides us with the opportunity to treat your job as our most critical one and to maximize our impact on your success.

### Our Location

We are centrally located in the heart of the Midwest. Our headquarters is on the near south-west side of Indianapolis which provides

- Low-cost shipping of parts
- Quick turn-around of parts orders
- Easy access to our technical staff
- Easy access to Interstates

### Our People

We believe our people are our most valuable asset and our track record proves it. More than 75% of our team members have been with IPG for at least ten years which speaks volumes about the culture we have created for our employees. This quality alone provides us with an unparalleled ability to (make this stronger)

- Invest in updating and gathering new knowledge and skills.
- Provide proven and consistent cost efficient operations.
- Provide a level of precision craftsmanship that is developed only through years of continual training and hands on experience. We currently staff more than 20 professional grinding technicians.

Every team member knows that it takes a total team commitment of being focused on the customer to develop and execute solutions at the highest level. Pride in exceeding customer expectations cultivates a level of commitment, integrity and professionalism that is displayed throughout our entire organization.
