

PARTNERS IN PERFORMANCE THROUGH PRECISION

ISO 9001 - 2000 + AS9100 Registered

Medical

Precision can be critical when it comes to medical devices. We are confident in our ability to continue serving medical device manufacturers as our ability to hold critical tolerances can stand up to any in the industry. We have the quality systems and controls in place to meet the stringent requirements of medical device manufacturing.

Experienced In:

Urological Catheters
Cannula Grinding

IPG earned the Cook Urological “Dock to Stock” Award in 2006

The “Dock to Stock” award demonstrates that our quality has met the high standards and thorough testing requirements of Cook Urological. With this recognition, we are able to ship product directly to their stock with no need for sample testing. Given the many FDA and other strict regulations covering medical device manufacturers, this award signifies that we have achieved an extremely high statistical reliability of quality.

Recent Customer Partnership:

Hologix Systems, Suros Surgical Unit
